### Upper Macungie Fire Protection Maintains Top Ranking since 2017

Upper Macungie Township's fire protection rating ranks among the best in the nation according to the latest analysis by the leading national evaluator of community fire response organizations.

ISO (Insurance Services Office) collects and evaluates information from communities in the United States on their fire suppression capabilities. ISO's data-driven findings are the standard for insurance companies, insurance regulators, fire departments, municipalities, and property/casualty risk organizations.

ISO's Public Protection Classification (PPC) evaluates communities according to a uniform set of criteria incorporating standards developed by the National Fire Protection Association (NFPA), and the American Water Works Association (AWWA). PPC grades range from 1 to 10 with Class 1 representing the ultra-elite fire suppression programs and Class 10 that falls below ISO's minimum criteria. Upper Macungie's performance has maintained a **Class 2 grade**, according to the recently released PPC, putting it in the top 26 of the Commonwealth.

#### Pennsylvania

We are very proud to maintain our ISO performance ranking and it is a tribute to the dedication of our three local volunteer fire companies, Good Will Fire Company #1 of Trexlertown, Fogelsville Fire Company, and Upper Macungie Township Station #56. Our Bureau of Fire and community place a high priority on protecting the lives and property of our citizens and businesses.
